

We recognize individual needs and help you look for personal solutions. ZYGO has many voice output devices because one device is not good for everyone. Look at what we have to offer and call for a demonstration of any of our products.

We would like to help you become familiar with the choices we offer you and your clients. You can see these great devices this month at the CSUN Conference in Los Angeles. We'll be in booth 603 at the Renaissance Hotel. Hope to see you there.

Product Highlights

Speech Generating Devices

Optimist-3HD & Dialect-3HD

These two dynamic display systems are solid voice output systems. The Optimist is the unrestricted Windows XP computer, while the Dialect is a 'dedicated' speech generating device. Both systems are offered with a choice of software installed. Choose Speaking Dynamically Pro with Boardmaker, The Grid 2 with PCS symbols and Acapela speech, or VS Communicator with SymbolStix and Acapela.

The 3HD devices come with a 20 GB hard drive. The design is sleek and lightweight (3.5 lbs.), making it very portable. The bright display is readable in all light conditions. Although it is a touch screen, it also comes with an external keyboard and mouse to make editing easy. They come with two USB ports, two switch jacks, mounting points, a long-life battery, and an audio amplifier/speaker backpack providing exceptionally loud output.

Choose the system you want, complete, for \$6,395. Or choose the hardware only and load it yourself for just \$4,950. Ask us about our promotional Educational Program pricing, too.

Polyana 4 with Persona

This handheld Windows CE computer offers an intuitive yet feature-packed software for text-to-speech communication. It's small and lightweight, and offers a large, 8.4" touch screen, switch access, and a notebook keyboard for access. Persona provides abbreviation/expansion, word completion and prediction, a large phrase bank, dialogue scripts, and letter-by-letter typing to get loud voice output.

Request a free Persona demonstration CD today.

PolyTABLET with Persona

The PolyTABLET features similar hardware to the Optimist 3HD, except it is a Windows CE computer with instant-on, and uses the popular Persona software found on the Polyana.

A keyboard is displayed on the touch screen for direct access, or use the supplied keyboard or switch scanning to type. The Persona software offers intelligent word prediction and many other speed techniques, while the TABLET provides a large, all-light readable display.

Macaw 5

Truly the most versatile digital recording AAC device on the market. All the features of the previous models but lighter, faster, and less expensive. It has a hinged, magnetic overlay retaining system and uses four AA batteries for power. It can be extremely simple with few choices on a page, or very sophisticated with multiple levels and key-linked messages. Many scanning methods are available with auditory prompts. Brightly colored key surrounds and keyguards are available.

Talara-32

Absolute simplicity in a versatile digital recording device. Forty-five minutes of recording time with no limit to the amount in each key, re-record at any time, four levels, enlarged key patterns, and simple single switch scanning. Simple to record messages and easy to change volume and vocabulary pages.

Spok21

The Spok21 is a sophisticated dual display device for text to speech conversations. It features a forward facing display and a natural sounding Babel synthesizer. Use the keyboard to type or plug switches to scan. It has twelve category levels with six quick phrases and 39 stored messages on each level to speed voice output. Add a second language if you like. It also has an optional infrared remote control module for environmental controls.

TalkingAid Wireless

Cell phone communication for voice and e-mail are built into this unique speech generating device. It holds three sets of 63 user-stored messages for rapid conversations. It has a spelling mode, quick phrase mode, and even voice recorded messages for use face to face or over the phone. It's lightweight, rugged, and moisture resistant. It comes with a removable keyguard. It can also be used as an alternative keyboard to your computer.
